PROFESSIONAL SUMMARY

Advanced Analytics and AI leader with 11+ years building and scaling enterprise analytics capabilities across retail and banking in 15 international markets, leading a team of 5 data scientists, data analysts and BI developers. Defined the analytics vision, strategy, governance, and operating model for a 7M+ yearly active member customer base influencing AED 23B in annual sales. Delivered AED 300M+ in incremental sales at 10x+ ROI (McKinsey-validated) through ML-driven segmentation, CLTV, churn and propensity models deployed into Braze and digital channels. Translates complex analytics into C-level commercial decisions. Executive education from IIM Calcutta; engineering degree from BITS Pilani.

CORE SKILLS & TECHNICAL COMPETENCIES

Advanced Analytics & AI: Machine Learning, Predictive & Prescriptive Analytics, CLTV, Churn & Propensity Modeling, Customer Segmentation, Forecasting, Time Series Analysis, NLP, A/B Testing & Experimentation, Incrementality Measurement, Model Deployment

Customer & Marketing Analytics: Loyalty Analytics, Personalization, Marketing ROI, Attribution, Promotions Effectiveness, Campaign Analytics, Cohort & RFM Analysis, Omni-Channel Marketing

Data & Governance: Customer Data Platform (CDP), Data Governance, Data Quality, ETL & Data Pipelines, Data Warehousing, Enterprise KPIs, Self-Service BI

Tools: Azure, Databricks, Data Factory, Python, SQL, SAS, R, Power BI, Tableau, QlikView, Braze, Excel/VBA

Leadership: People Management, Team Building & Hiring, Coaching & Mentoring, Analytics Strategy & Roadmap, Stakeholder Management, Executive Communication, Cross-Functional Leadership

PROFESSIONAL EXPERIENCE

Analytics Manager – Customer Intelligence & Loyalty Growth Analytics

Aug 2021 – Present

Majid Al Futtaim · Dubai, UAE

- **Analytics Vision, Strategy & Governance:** Defined the analytics vision, roadmap, governance, and operating model for customer and loyalty investments across 15 Carrefour markets, aligning enterprise KPIs and OKRs with commercial strategy and business transformation.
- **Team Leadership & Capability Building:** Built and lead a team of 5 direct reports (data analysts, data scientists, BI developers), owning hiring, performance management and capability development; drove adoption of advanced analytics across 15 markets.
- **Customer Intelligence at Scale:** Architected a Customer Intelligence framework for 7M+ members, influencing a baseline of AED 23B in annual sales through advanced segmentation, personalization, and loyalty optimization; built 30+ segmentation models to sharpen targeting precision.
- **Revenue Growth & Marketing ROI:** Generated AED 300M+ in incremental sales per year at 10x ROI via machine-learning-powered segmentation and hyper-personalized campaigns across app, web, search, social, display, and video, lifting sales penetration from 40% to 60% and retention from 69% to 72%.
- **AI / ML Deployment:** Operationalized ML-driven CLTV, churn, and propensity scores into production systems (Braze, web) for real-time, hyper-personalized customer journeys, taking models from development through live deployment.
- **Decision Intelligence & Self-Service Analytics:** Launched a global self-serve analytics ecosystem in Power BI, democratizing data access for commercial teams and driving enterprise adoption of dashboards and decision-support tools.
- **Promotions Effectiveness & Incrementality:** Established a standardized measurement and attribution framework to quantify true campaign lift and optimize campaign budget allocation.
- **Data Governance & Cross-Functional Leadership:** Embedded data governance, data quality, and enterprise KPI frameworks into executive decision-making; partnered with CRM, Product, Revenue Management, and Marketing across 15 markets and presented quarterly growth strategy to C-level leadership.

Data Scientist

Aug 2018 – Aug 2021

Abu Dhabi Commercial Bank (ADCB) · Abu Dhabi, UAE

- Saved AED 1M annually by designing SMS cost-optimization algorithms for targeted customer communication.
- Built NLP text-matching algorithms to standardize company names across the three-bank merger (ADCB, UNB, Al Hilal), improving data quality and reporting consistency.
- Built regression and K-Means clustering models to identify drivers of average balances in Wholesale Banking, informing relationship targeting; analyzed deposit stickiness drivers to strengthen CASA balances.

Business Intelligence Team Leader

Sep 2016 – Aug 2018

Emirates NBD · Dubai, UAE

- Led BI operations for a team of 6 and lifted resolution rates by 5% by moving from daily to cyclical account allocation and introducing an automated balancing algorithm.
- Reduced processing time by 90% through ETL automation in SAS, QlikView, and VBA, saving 1 FTE annually.
- Built executive data-storytelling dashboards in QlikView with KPI tracking and conversion-funnel analysis, improving debt-recovery performance by 70%.

Analytics & Modelling Analyst

Jun 2015 – Sep 2016

Accenture · India

- Migrated 60% of customers to EDI platforms through structured change-management programs, cutting costs by 25%.
- Automated reporting pipelines in Tableau, supporting operational-excellence initiatives and strengthening stakeholder management.

KEY PROJECTS

Predictive Growth & Churn Intelligence Framework | Majid Al Futtaim

- Architected end-to-end CLTV, churn, and propensity models (Python/SQL), deploying ML-driven scores into Braze and web platforms for real-time, hyper-personalized journeys across 15 markets.
- Reduced yearly churn from 30% to 25% and generated AED 300M+ in incremental sales with a documented 10x ROI.

Global Campaign Management & Incrementality Ecosystem | Majid Al Futtaim

- Launched a global self-serve analytics ecosystem in Power BI, reducing manual reporting cycles and democratizing data access for commercial teams.
- Established a measurement & attribution framework to evaluate true campaign lift and optimize budget across channels; delivered brand-level performance insights enabling data-backed supplier negotiations.

Strategic Market Defense & Advanced Segmentation | Majid Al Futtaim

- Developed 30 segmentation models and 13 distinct shopper archetypes using lifestyle-based segmentation (diet, cultural and lifestyle preferences, store preference) for 7M+ yearly active members.
- Engineered a Strategic Defense Dashboard during international brand boycotts, shifting demand toward local and private-label brands and lifting annual retention by 3 percentage points.

EDUCATION

Executive Program in Business Management (International) · IIM Calcutta

2024–2025 · Distinction

B.E., Electronics & Instrumentation · BITS Pilani

2011–2015 · Distinction

CERTIFICATIONS

Base SAS Certified Programmer – SAS Institute · Machine Learning with Python – IBM · Customer Analytics – Wharton, University of Pennsylvania · Basic Statistics – University of Amsterdam

AWARDS

Tamayuz Award (2020) | ADCB | Saved AED 1M/year by reducing SMS communication costs

Bright Idea Award (2018) | Emirates NBD | Collections-reporting automation
