

RAHUL MUNDRA

Analytics Manager | Customer Intelligence, Loyalty & AI | Retail & Banking | UAE & GCC
Dubai, UAE | +971 54 368 0961 | rahulmundra8087@gmail.com | [Rahul Mundra | LinkedIn](#)
UAE Resident | Open for UAE and KSA

PROFESSIONAL SUMMARY

Advanced Analytics and AI leader with 11+ years building and scaling enterprise analytics capabilities across retail and banking in 15 international markets, leading a team of 5 data scientists, data analysts and BI developers. Defined the analytics vision, strategy, governance, and operating model for a 7M+ loyalty member customer base influencing AED 23B in annual sales. Delivered AED 300M+ in incremental sales at 10x ROI (McKinsey-validated) through ML-driven segmentation, CLTV, churn and propensity models deployed into Braze and digital channels. Translates complex analytics into C-level commercial decisions. Executive education from IIM Calcutta; engineering degree from BITS Pilani.

CORE SKILLS & TECHNICAL COMPETENCIES

Customer & Loyalty Analytics: Loyalty Analytics, Loyalty Strategy, Customer Segmentation, RFM, Personalization, Omnichannel Campaigns, Sales Penetration, Marketing ROI, Campaign Analytics, Promotions Effectiveness

Advanced Analytics & AI: Machine Learning, Random Forest, K-Means Clustering, Regression, CLTV & Propensity Models, Incrementality, A/B Testing, Double-Delta Analysis, Pre-Delinquency Models, Model Deployment

Data & Platforms: CDP, Gravy, Maxxing, Data Governance, Data Quality, ETL & Pipelines, Data Warehousing, Enterprise KPIs, Self-Service BI

Tools: Python, SQL, Power BI, Braze, Azure, Databricks, Data Factory, SAS, R, Tableau, QlikView, Excel/VBA

Leadership: People Management, Hiring, Coaching, Analytics Strategy, Operating Model Design, Stakeholder Management, Executive Communication, Cross-Functional Leadership

PROFESSIONAL EXPERIENCE

Analytics Manager – Customer Intelligence & Loyalty Growth Analytics

Aug 2021 – Present

Majid Al Futtaim · Dubai, UAE

- **Analytics Vision, Strategy & Governance:** Defined the analytics vision, roadmap, governance, and operating model for customer and loyalty investments across 15 Carrefour markets, aligning enterprise KPIs and OKRs with commercial strategy and business transformation.
- **Team Leadership & Capability Building:** Built and lead a team of 5 direct reports (data analysts, data scientists, BI developers), owning hiring, performance management and capability development; drove adoption of advanced analytics across 15 markets.
- **Customer Intelligence at Scale:** Architected a Customer Intelligence framework for 7M+ members, influencing a baseline of AED 23B in annual sales through advanced segmentation, personalization, and loyalty optimization; built 26 customer segments to sharpen targeting precision.
- **Revenue Growth & Marketing ROI:** Generated AED 300M+ in incremental sales per year at 10x ROI via machine-learning-powered segmentation and hyper-personalized campaigns across app, web, search, social, display, and video, lifting sales penetration from 40% to 60% and yearly retention from 65% to 72%.
- **AI / ML Deployment:** Operationalized ML-driven CLTV, churn, and propensity scores into production systems (Braze, web) for real-time, hyper-personalized customer journeys, taking models from development through live deployment.
- **Decision Intelligence & Self-Service Analytics:** Launched a global self-serve analytics ecosystem in Power BI, democratizing data access for commercial teams and driving enterprise adoption of dashboards and decision-support tools.
- **Promotions Effectiveness & Incrementality:** Established a standardized measurement and attribution framework to quantify true campaign lift and optimize campaign budget allocation.
- **Data Governance & Cross-Functional Leadership:** Embedded data governance, data quality, and enterprise KPI frameworks into executive decision-making; partnered with CRM, Product, Revenue Management, and Marketing across 15 markets and presented quarterly growth strategy to C-level leadership.
- **Strategic Defense & Market Recovery:** Built the Strategic Defense Dashboard during international brand boycotts, reducing the sales decline in affected markets from 30% to 12% through targeted customer re-engagement and supplier negotiations.

Data Scientist

Aug 2018 – Aug 2021

Abu Dhabi Commercial Bank (ADCB) · Abu Dhabi, UAE

- Saved AED 1M annually by designing SMS cost-optimization algorithms for targeted customer communication.
- Built NLP text-matching algorithms to standardize company names across the three-bank merger (ADCB, UNB, Al Hilal), improving data quality and reporting consistency.
- Built regression and K-Means clustering models to identify drivers of average balances in Wholesale Banking, informing relationship targeting; analyzed deposit stickiness drivers to strengthen CASA balances.

Business Intelligence Team Leader

Sep 2016 – Aug 2018

Emirates NBD · Dubai, UAE

- Led BI operations for a team of 6 and lifted resolution rates from 75% to 80% by moving from once-a-month account allocation to 10 cycles and introducing an automated balancing algorithm.
- Reduced processing time by 90% through ETL automation in SAS, QlikView, and VBA, saving 1 FTE annually.
- Built executive data-storytelling dashboards in QlikView with KPI tracking and conversion-funnel analysis.

Analytics & Modelling Analyst

Jun 2015 – Sep 2016

Accenture · India

- Migrated 60% of customers to EDI platforms through structured change-management programs, cutting costs by 25%.
- Automated reporting pipelines in Tableau, supporting operational-excellence initiatives and strengthening stakeholder management.

KEY PROJECTS

Loyalty Strategy & Value Proposition | Majid Al Futtaim

- Defined the analytics vision, governance and operating model across 15 markets and revamped the loyalty value proposition: instant member prices, Share Days, competitions, push notifications and journey rewards.
- Lifted loyalty sales penetration from 40% to 60% on average across markets.

Customer Segmentation | Majid Al Futtaim

- Built 26 customer segments from transactional data using machine learning, covering value (shopper group, affluence, promo sensitivity, margin), needs (lifestage, lifestyle tags) and behavior (channel, format, shop timing).
- Combined them into a single Know Your Customer view in Power BI, showing where each of 7M+ loyalty members sits across value, behavior and needs.

Personalized Omnichannel Campaigns | Majid Al Futtaim

- Gave each member a personalized online and in-store coupon based on their segment, running each market's budget as tactical campaigns with one objective: basket, frequency, retention, incremental sales or activation uplift.
- Measured every campaign against a universal control group: AED 300M+ incremental sales per year across 15 markets at 10x ROI (McKinsey-validated); retention 65% to 72%, activation 60% to 73%, reactivation 10% to 18%.

EDUCATION

Executive Program in Business Management (International) · IIM Calcutta

2024–2025 · Distinction

B.E., Electronics & Instrumentation · BITS Pilani

2011–2015 · Distinction

CERTIFICATIONS

Base SAS Certified Programmer – SAS Institute · Machine Learning with Python – IBM · Customer Analytics – Wharton, University of Pennsylvania · Basic Statistics – University of Amsterdam

AWARDS

Tamayuz Award (2020) | ADCB | Saved AED 1M/year by reducing SMS communication costs

Bright Idea Award (2018) | Emirates NBD | Collections-reporting automation
